FINE CHEESE & COUNTER 2018

CUTTING TECHNIQUES

TOP TIPS

- Bring the cheese to room temperature a couple of hours before serving to fully enjoy the flavour.
- Cut blue cheese in triangular wedges to maintain an even spread of blue veins and texture.
- Good quality oatcakes & crackers are an absolute essential for any good cheeseboard.
- Don't forget to garnish the cheese board with nuts, honey and non-citrus fruits like apples and pears and fruit cheeses. This will completely transform the tasting experience.
- A variety of breads can improve the tasting experience too. Fruit/raisin brioche or sourdough is great with blue cheese, rye bread with creamy triple cream cheese, soft white bread with hard cheese and olive bread with goats cheese. Toasting breads can also make a very interesting contrast in textures.

- Cheese celebration cakes are now a popular option for weddings, birthdays and anniversaries
- Themed layers such as something old (your favourite aged cheddar), something new (fresh soft cheese), something borrowed (Scottish brie) something blue (classic British blue) work well for weddings
- Extra cheese accompaniments can be added for decoration such as fruits for cheese, nuts and speciality crackers
- Contact the cheese team for advice on availability and special orders for whole cheese wheels
