FIOVANA

SUPERFRUIT CORDIAL

Fiovana was started because water, while keeping us alive, just didn't get their pulses racing. The only thing they could find in the shops to spice it up was artificially sweetened or full of sugar. They knew they could do better so Fiovana was created - a better for you cordial.

Since 1817 the artisan bakers of Market Drayton, Shropshire, have been keeping a closely guarded secret: the coveted recipe of Billington's Gingerbread. With links to the ancient spice routes, Billington's Gingerbread, is still crafted today using one of the oldest gingerbread recipes in the country. With a blend of secret spices, a dash of rum and the smooth velvety of golden syrup, Billington's Gingerbread is composed into crisp gingerbread fingers that are perfect for dunking!

ODYSEA

FEEDING CONVERSATION

Odysea honey is produced in mainland Greece by artisan bee keeper Alexandros Gousiariis. Alexandros has worked closely with us since 1996 and produces our entire range of honey. He lovingly tends to his hives throughout the year, moving them seasonally to give the bees access to different native herbs and flora as well as to protect them from harsh winter weather. Thanks to this movement and care the honeys boast distinct flavours and are of an exceptionally high quality.

Our honey is cold extracted, unpasteurised and unprocessed and it's these traditional production methods that ensure the nutritional values of our exceptional tasting honeys remain.

Odysea honey naturally contains on average 29% less sugar than other honey brands*

*Action on Sugar at Queen Mary University of London analysed 102 honeys from UK supermarkets & found Odysea honey to have the least sugars per 100g, March 2019
