**aye**  
pickled

Aye Pickled is a family business based in Edinburgh. We've always had a passion for pickled and fermented foods – the tang, crunch, fizz and the sweet, sharp and sour flavours are all winners for us. But for a long time we couldn't find anything on the local market to satisfy our cravings. So we started making our own.

We do everything by hand, using traditional techniques, yet our award-winning range is vibrant, bold and innovative.

A contemporary cola with soul. Alba Cola is made with quality Scottish water and heather extract, an homage to one of Scotland's most iconic flowers.

Lightly carbonated with a buzz of botanicals, our recipe is made with all-natural sugars and is suitable for vegans. Whether grabbed on the go, ordered down your local or enjoyed at home, it's a refreshing reimagining of cola as you know it. Best served chilled.

AVLAKI  
superb organic olive oils

AVLAKI Superb Organic Olive Oils present the true taste of extra virgin olive oil, as is understood by the olive oil farmers, who choose their oil straight from picking the olives. AVLAKI fresh organic extra virgin olive oils are also unusual in that the texture is extremely light, and the taste delicate, so they are versatile for all kinds of recipes.

We harvest ONLY in December when the fruit is at its optimum for quality, the oil is then bottled unfiltered and unadulterated as soon as possible to capture the exceptional taste & aroma of fresh olive oil in the bottle.

# BANANA JOE®

Cooked with rice bran oil, and oil that that's high in anti-oxidants and no MSG or anything artificial is added to their perfectly hand cooked crisps.

Calder's Kitchen was formed by husband and wife team Andrew and Anne-Marie Calder in 2015. We started making Piccalilli in our family kitchen after discovering Andrew's late Granddad, Charlie's favourite family recipe and deciding to 'give it a go'.

Delicious fruit vinegars and more to delight your tastebuds and transform your cooking -

The Womersley brand was launched by Martin and Aline Parsons from their home, Womersley Hall, Yorkshire in 1979, using home grown specialist herbs and fruits as the key ingredients. Since 2009, it has been run by their son Rupert and his wife, who share his parent's botanical enthusiasm, from their home in Chipping Norton in the Cotswolds.

Their delicious fruit vinegars are popular with home cooks and chefs alike, as they are very versatile. You can use them to improve the flavour of your food, to preserve your food, fill in for missing ingredients and much more - no kitchen cupboard should be without them.

**WOODSTAR**

Woodstar is a skillfully crafted blend of berries, botanicals and cocoa. Light, artfully balanced, with a surprisingly complex depth of flavour, it's a wine to be sipped and savoured.

Growing wild in the Amazonian forest and naturally high in anti-oxidants, our açai berries are carefully harvested and skilfully macerated in alcohol for twelve weeks to release all of their colour and flavour.

A delicious drink that's just 1% ABV.
